

TIPOLOGIA VIOLENTEI REALE

În cele ce urmeaza sunt prezentate cele 6 tipuri principale de violenta, pe canale TV, în functie de frecventele de aparitie si de durate.

Cele mai multe cazuri de violenta fizica s-au întâlnit în emisiunile de la NATIONAL, urmate de TVR1 si de ANTENA1. În cazul violentei verbale, tot NATIONAL a difuzat cele mai multe scene de acest tip, fiind urmat de PRIMA si de MTV. Cazurile de violenta psihologica sunt destul de rare, dar si în acest caz tot NATIONAL având întâietatea. Violenta sociala si sexuala au fost destul de slab reprezentate, în schimb cea economica este foarte bine evidentiata la NATIONAL (violenta economica are frecventa de aparitie cea mai ridicata).

Privind la graficul tipologiei violentei, raportata la durate, remarcam o modificare fata de datele precedente. Cea mai mare acoperire mediatica, pentru violenta fizica, o are ANTENA1, urmata de PROTV si NATIONAL. Un caz interesant este pentru violenta verbala: daca, în privinta frecventelor, NATIONAL era lider, în privinta duratelor de emisie, acest canal este pe unul dintre ultimele locuri, ceea ce semnifica o durata foarte scurta a actelor de violenta verbala. Aceeasi observatie este valabila si în privinta violentei economice, tot referitor la NATIONAL TV.
